

DAY 19 Fowler Bay to bush camp 10 miles West of Mundrabilla

AJ reporting

Our first stop was Ceduna where a local told us not to leave our vehicles unattended!

“Merv” the ute had a bad day again! Cleaned carby, changed points but still miss firing once it got hot.

We called into Koonalda, an abandoned Homestead which is about 14 miles north in off the bitumen along a shocking track. A good camp site for a future trip with the remains of thirty or so rusty wrecked early vehicles spread around the old homestead and out buildings.

At the border of WA and South Australia we had a break and a cuppa. Our vehicles were searched for fruit and veg as expected, but by then we were prepared!
